As a pupil, I exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make a summary for some reserve, they are complained. Just tiny students that have reading's heart or really their pastime. They just do what the teacher wants, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring and can't see colorful pictures on there. Yeah, it is for being complicated.
