Anesthesiology and the Heart: Annual Utah Postgraduate Course in Anesthesiology 1990 (Developments in Critical Care Medicine and Anaesthesiology) (Volume 23)

Theodore H. Stanley, M. D. Anesthesiology and the Heart contains the Refresher Course manuscripts of the presentations of the 35th Annual Postgraduate Course in Anesthesiology which took place at The Cliff Conference Center in Snowbird, Utah, February 16-20, 1990. The chapters reflect new data and concepts within the general framework of "evaluating myocardial function," "pharmacology and the cardiac patient," "anesthesia for patients with cardiac disease," and "stress, cardiopulmonary bypass, coagulation problems and related issues." The purposes of the textbook are to 1) act as a reference for the anesthesiologists attending the meeting, and 2) serve as a vehicle to bring many of the latest concepts in anesthesiology to others within a short time of the formal presentation. Each chapter is a brief but sharply focused glimpse of the interests in anesthesia expressed at the conference. This book and its chapters should not be considered complete treatises on the subjects addressed but rather attempts to summarize the most salient points. This textbook is the eighth in a continuing series documenting the proceedings of the Postgraduate Course in Salt Lake City. We hope that this and the past and future volumes reflect the rapid and continuing evolution of anesthesiology in the late twentieth century. vii LIST OF CoNTIUBUTDRS Bailey, P. L.
