Conformal Field Theory (Graduate Texts in Contemporary Physics)

Philippe Francesco, Pierre Mathieu, David Sénéchal

Conformal Field Theory (Graduate Texts in Contemporary Physics) Philippe Francesco, Pierre Mathieu, David Sénéchal

Filling an important gap in the literature, this comprehensive text develops conformal field theory from first principles. The treatment is self-contained, pedagogical, and exhaustive, and includes a great deal of background material on quantum field theory, statistical mechanics, Lie algebras and affine Lie algebras. The many exercises, with a wide spectrum of difficulty and subjects, complement and in many cases extend the text. The text is thus not only an excellent tool for classroom teaching but also for individual study. Intended primarily for graduate students and researchers in theoretical high-energy physics, mathematical physics, condensed matter theory, statistical physics, the book will also be of interest in other areas of theoretical physics and mathematics. It will prepare the reader for original research in this very active field of theoretical and mathematical physics.

From reader reviews:

Frances Williamson:

The publication with title Conformal Field Theory (Graduate Texts in Contemporary Physics) contains a lot of information that you can learn it. You can get a lot of gain after read this book. This book exist new knowledge the information that exist in this e-book represented the condition of the world today. That is important to you to understand how the improvement of the world. This book will bring you within new era of the internationalization. You can read the e-book in your smart phone, so you can read that anywhere you want.

Ann Fout:

Conformal Field Theory (Graduate Texts in Contemporary Physics) can be one of your nice books that are good idea. All of us recommend that straight away because this publication has good vocabulary that may increase your knowledge in language, easy to understand, bit entertaining but nonetheless delivering the information. The author giving his/her effort to place every word into enjoyment arrangement in writing Conformal Field Theory (Graduate Texts in Contemporary Physics) however doesn't forget the main place, giving the reader the hottest and also based confirm resource info that maybe you can be considered one of it. This great information could drawn you into completely new stage of crucial pondering.

Jasmine Myers:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that examining is not important, boring and also can't see colorful pics on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Conformal Field Theory (Graduate Texts in Contemporary Physics) can make you sense more interested to read.

Sandra Birk:

What is your hobby? Have you heard that will question when you got scholars? We believe that that issue was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. And you also know that little person including reading or as reading become their hobby. You need to know that reading is very important in addition to book as to be the point. Book is important thing to include you knowledge, except your own personal teacher or lecturer. You find good news or update about something by book. Amount types of books that can you take to be your object. One of them is actually Conformal Field Theory (Graduate Texts in Contemporary Physics).
