Chemical Process Technology

Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

Chemical Process Technology Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

With a focus on actual industrial processes, e.g. the production of light alkenes, synthesis gas, fine chemicals, polyethene, it encourages the reader to think “out of the box” and invent and develop novel unit operations and processes. Reflecting today’s emphasis on sustainability, this edition contains new coverage of biomass as an alternative to fossil fuels, and process intensification.

The second edition includes:

- New chapters on Process Intensification and Processes for the Conversion of Biomass
- Updated and expanded chapters throughout with 35% new material overall
- Text boxes containing case studies and examples from various different industries, e.g. synthesis loop designs, Sasol I Plant, Kaminsky catalysts, production of Ibuprofen, click chemistry, ammonia synthesis, fluid catalytic cracking
- Questions throughout to stimulate debate and keep students awake!
- Richly illustrated chapters with improved figures and flow diagrams

Chemical Process Technology, Second Edition is a comprehensive introduction, linking the fundamental theory and concepts to the applied nature of the subject. It will be invaluable to students of chemical engineering, biotechnology and industrial chemistry, as well as practising chemical engineers.

From reviews of the first edition:

“The authors have blended process technology, chemistry and thermodynamics in an elegant manner... Overall this is a welcome addition to books on chemical technology.” – The Chemist

“Impressively wide-ranging and comprehensive... an excellent textbook for students, with a combination of fundamental knowledge and technology.” – Chemistry in Britain (now Chemistry World)

From reader reviews:

Rosemary Taylor:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite e-book and reading a reserve. Beside you can solve your problem; you can add your knowledge by the book entitled Chemical Process Technology. Try to make the book Chemical Process Technology as your friend. It means that it can to get your friend when you truly feel alone and beside those of course make you smarter than in the past. Yeah, it is very fortunated for you personally. The book makes you far more confidence because you can know everything by the book. So , we need to make new experience and also knowledge with this book.

Henrietta Roderick:

The actual book Chemical Process Technology will bring that you the new experience of reading a book. The author style to explain the idea is very unique. If you try to find new book to study, this book very appropriate to you. The book Chemical Process Technology is much recommended to you to study. You can also get the e-book from official web site, so you can more easily to read the book.

Peggy Hardman:

Playing with family within a park, coming to see the water world or hanging out with close friends is thing that usually you will have done when you have spare time, then why you don't try thing that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Chemical Process Technology, it is possible to enjoy both. It is fine combination right, you still want to miss it? What kind of hang type is it? Oh come on its mind hangout men. What? Still don't get it, oh come on its named reading friends.

Teresa Hunter:

Do you one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Make an effort to pick one book that you just dont know the inside because don't ascertain book by its include may doesn't work the following is difficult job because you are scared that the inside maybe not as fantastic as in the outside appear likes. Maybe you answer is usually Chemical Process Technology why because the fantastic cover that make you consider with regards to the content will not disappoint anyone. The inside or content will be fantastic as the outside or even cover. Your reading 6th sense will directly direct you to pick up this book.
