The Last Stop asks the question: What happens when Evolution ends? It's Ender's Game meets Close Encounter of the Third Kind - a character-driven action packed drama first set in a high school suffused with emerging sexuality and a strict pecking order, followed by wild flying saucer rides to the dark side of the moon, and then to a city under the ice on Europa where seemingly anything is possible. Mature Sci-Fi devotees will appreciate The Last Stop's hardcore science and philosophy. Young adult readers will enjoy its fast-paced action, stunning visual imagery, three-dimensional characters, teenage protagonists and just the right dash of humor. Who says a feelgood story can't be classic Sci Fi?
