**Consider Ethics: Theory, Readings, and Contemporary Issues (2nd Edition)** Bruce N. Waller  
Offering a balance of theory and applications and a mix of text and readings, *Consider Ethics* begins with chapters covering ethical theory, each of which is followed by related, classical readings. The book concludes with an examination of six contemporary ethical *issues* presented in a pro/con format, including introductory material placing each issue and the arguments in context.

Featuring selections from the world's most influential philosophers, this combination of primary texts and explanatory pedagogy presents the material in a clear, accessible way that does not sacrifice rigor. Making connections among different ethical theories throughout, the text helps students to engage the subject matter and apply theories to important contemporary ethical issues.
