Solitons and Chaos (Research Reports in Physics)

Solitons and Chaos (Research Reports in Physics)

"Solitons and Chaos" is a response to the growing interest in systems exhibiting these two complementary manifestations of nonlinearity. The papers cover a wide range of topics but share common mathematical notions and investigation techniques. An introductory note on eight concepts of integrability has been added as a guide for the uninitiated reader. Both specialists and graduate students will find this update on the state of the art useful. Key points: chaos vs. integrability; solitons: theory and applications; dissipative systems; Hamiltonian systems; maps and cascades; direct vs. inverse methods; higher dimensions; Lie groups, Painleve analysis, numerical algorithms; perturbation methods.

From reader reviews:

Timothy Parker:

Information is provisions for anyone to get better life, information nowadays can get by anyone in everywhere. The information can be a knowledge or any news even a problem. What people must be consider whenever those information which is inside former life are challenging to be find than now could be taking seriously which one is appropriate to believe or which one the resource are convinced. If you have the unstable resource then you buy it as your main information you will have huge disadvantage for you. All those possibilities will not happen within you if you take Solitons and Chaos (Research Reports in Physics) as your daily resource information.

Cameron Rodriguez:

The actual book Solitons and Chaos (Research Reports in Physics) will bring someone to the new experience of reading a new book. The author style to spell out the idea is very unique. If you try to find new book you just read, this book very suited to you. The book Solitons and Chaos (Research Reports in Physics) is much recommended to you to learn. You can also get the e-book from the official web site, so you can more readily to read the book.

Eric Baur:

Reading can called thoughts hangout, why? Because when you find yourself reading a book particularly book entitled Solitons and Chaos (Research Reports in Physics) the mind will drift away trough every dimension, wandering in each aspect that maybe unidentified for but surely might be your mind friends. Imaging every word written in a guide then become one form conclusion and explanation this maybe you never get ahead of. The Solitons and Chaos (Research Reports in Physics) giving you one more experience more than blown away the mind but also giving you useful info for your better life within this era. So now let us teach you the relaxing pattern at this point is your body and mind will likely be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary investing spare time activity?

Patti Wooden:

Is it an individual who having spare time then spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something new? This Solitons and Chaos (Research Reports in Physics) can be the reply, oh how comes? A fresh book you know. You are therefore out of date, spending your free time by reading in this new era is common not a geek activity. So what these books have than the others?
