As a university student, I exactly feel bored to help reading. If their teacher requested them to go to the library or to make a summary for some guide, they are complained. Just very little students that have reading's heart or real their passion. They just do what the teacher wants, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that looking at it is not important, boring as well as can't see colorful pics on there. Yeah, it is to be complicated. Book is very important in your case.
