Edgar Allan Poe, one of the great American writers, died a mysterious death in 1849. Found delirious on the streets of Baltimore and wearing clothes that were not his own, Edgar was admitted to Washington Medical Center where he died without explaining what had happened to himself. Even his medical records and death certificate have been lost to history. This is the story of the two men whose blood feud brought about Edgar's death. Alexander Reynolds and Matthew Cromwell have both lived many lives under many names. They are men of biblical renown, resurrected men who, having died once, can no longer die until the foretold Second Coming. Eternal life has its cost, though, whether or not Alexander and Matthew want to pay it. Alexander has already seen Matthew kill Edgar's mother and he is determined to keep the same fate from befalling Edgar. From the time of Christ to the modern days of the Poe Toaster, *The Man Who Killed Edgar Allan Poe* is a sweeping novel of love, terror, and mystery that could have come from the imagination of Edgar Allan Poe himself.
