Corporate Social Responsibility and the State: International Approaches to Forest Co-Regulation Jane Lister

Public concern about worsening global environmental and social conditions has led to skepticism about the efficacy of voluntary corporate social responsibility (CSR) programs, and to pressure for governmental CSR engagement. One of the first studies to investigate the role of the state in CSR, this book provides insight into the new governance model of private-public co-regulation emerging around the globe. Examining forest certification in Canada, the US, and Sweden, Lister draws on extensive interviews with experts to offer unique evidence on CSR governance, ultimately arguing the importance of CSR as a supplement to rather than a substitute for state regulation.
