Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines Jr. Robert F. Kennedy

Over a decade ago, following a sharp rise in developmental disorders such as autism and ADHD, the mercury-containing preservative Thimerosal was widely believed to have been eliminated from vaccine supplies in the US and abroad. However, dangerous quantities of Thimerosal continue to be used, posing a significant threat to public health and leading to a crisis of faith in vaccine safety.

In this groundbreaking book, Robert F. Kennedy, Jr., and Dr. Mark Hyman examine the research literature on Thimerosal and make a very clear statement about its potentially dangerous effects. In the past, the CDC, FDA, NIH, and AAP, as well as the US Congress, the American Academy of Family Physicians, the US Department of Agriculture, the European Medicines Agency, and the California Environmental Protection Agency have expressed concerns over the use of Thimerosal in vaccines. But despite the many voices calling for action, the media and policy makers have repeatedly failed to adequately address the issue.

Now, with *Thimerosal: Let the Science Speak*, the goals are to educate parents, doctors, and health policy makers; to eliminate this toxic chemical from the world's vaccine supplies; to move toward safer alternatives; and to maintain or increase vaccination rates critical to the United States and developing nations. With safer options available, parents shouldn't have to worry about the devastating effects of vaccinating their children.

From reader reviews:

Johnnie McCormick:

In other case, little persons like to read book Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines. You can choose the best book if you like reading a book. So long as we know about how is important a new book Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines. You can add knowledge and of course you can around the world by way of a book. Absolutely right, due to the fact from book you can realize everything! From your country till foreign or abroad you will be known. About simple thing until wonderful thing you can know that. In this era, we are able to open a book or searching by internet unit. It is called e-book. You can utilize it when you feel bored to go to the library. Let's learn.

Rick Briones:

You are able to spend your free time to learn this book this reserve. This Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines is simple to create you can read it in the playground, in the beach, train along with soon. If you did not have got much space to bring the printed book, you can buy the e-book. It is make you better to read it. You can save often the book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

Eva Sexton:

Is it an individual who having spare time then spend it whole day through watching television programs or just resting on the bed? Do you need something totally new? This Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines can be the reply, oh how comes? A book you know. You are and so out of date, spending your free time by reading in this completely new era is common not a geek activity. So what these ebooks have than the others?

Elmo Bragg:

That guide can make you to feel relax. This kind of book Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines was bright colored and of course has pictures around. As we know that book Thimerosal: Let the Science Speak: The Evidence Supporting the Immediate Removal of Mercury—a Known Neurotoxin—from Vaccines has many kinds or style. Start from kids until teenagers. For example Naruto or Detective Conan you can read and think you are the character on there. Therefore , not at all of book tend to be make you bored, any it offers you feel happy, fun and rest. Try to choose the best book for you personally and try to like reading in which.
