Plague H. W. "Buzz" Bernard

"An all-too-believable nightmare tale." --Tom Young, author of *The Mullah's Storm*, *Silent Enemy*, and *The Renegades*

If his attack succeeds, Atlanta will become the next Ground Zero.

"Fans of the late Michael Crichton should check out Buzz Bernard's *Plague*. This bioterrorism thriller is a real page-turner."--Cheryl Norman, author of *Rebuild My World*

In only a matter of days, 9/11 and the destruction of the Twin Towers will be rivaled by a lone-wolf terrorist attack on America. Atlanta is targeted as Ground Zero for the most horrifying plague in modern times.

Deep in the secret recesses of a Cold War lab, the Russians created tons of deadly bio-weapons. Now, decades later, a protégé of that Russian research is about to release weaponized Ebola into the heart of the South's most iconic city: Atlanta, where the symbols of American "decadence" range from a happily diverse population to the Coca-Cola museum and CNN building.

A preliminary test of the horrifying virus demonstrates the unspeakable suffering of its victims--and alerts the Centers for Disease Control that a terrible pandemic is in the making. CDC Virologist Dr. Dwight Butler begins a frantic effort to track down the source before it's too late.

For new BioDawn CEO Richard Wainwright, it quickly becomes clear that the "accidental" plane crash that killed the pharmaceutical company's entire executive hierarchy may have some connection to the evolving threat. Suddenly Richard is being stalked by a hit woman. He and Butler join forces to find the lone terrorist at the center of a plan that could unleash a modern Black Plague on the western world.

H.W. "Buzz" Bernard is an Air Force veteran and retired Weather Channel meteorologist. His 2010 hurricane thriller, *Eyewall*, became a number one bestseller in ebook. Visit him at www.buzzbernard.com.

From reader reviews:

Jessica Garcia:

Book is to be different per grade. Book for children until finally adult are different content. We all know that that book is very important usually. The book Plague ended up being making you to know about other expertise and of course you can take more information. It is extremely advantages for you. The e-book Plague is not only giving you considerably more new information but also to get your friend when you really feel bored. You can spend your own personal spend time to read your e-book. Try to make relationship with all the book Plague. You never sense lose out for everything in the event you read some books.

Gregory Stclair:

It is possible to spend your free time to study this book this e-book. This Plague is simple to create you can read it in the playground, in the beach, train along with soon. If you did not possess much space to bring the actual printed book, you can buy typically the e-book. It is make you better to read it. You can save the actual book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.

Joanna Weekley:

Is it an individual who having spare time after that spend it whole day by simply watching television programs or just telling lies on the bed? Do you need something new? This Plague can be the response, oh how comes? A book you know. You are therefore out of date, spending your free time by reading in this brand new era is common not a nerd activity. So what these textbooks have than the others?

Alice Smith:

What is your hobby? Have you heard that will question when you got college students? We believe that that concern was given by teacher for their students. Many kinds of hobby, Everybody has different hobby. So you know that little person such as reading or as reading become their hobby. You must know that reading is very important and book as to be the thing. Book is important thing to add you knowledge, except your current teacher or lecturer. You find good news or update about something by book. Numerous books that can you take to be your object. One of them is this Plague.
