## **She Was An American Spy During World War II** Jeane Slone

Jeane Slone writes her third historical fiction once again about the amazing women of the forties. In this novel, meet Kathleen Dwyer, who on a whim answers a classified ad for a secretarial position. Little did she know that she would be entering the world of wartime espionage and spy training. The story is about how young women were recruited to become spies, what basic training and finishing school was like and real missions they were sent on. There were very few American women spies during WW II. This historical fiction reminds us that it was women who were the hidden backbone to make the Allies successful and who were World War II's real unrecognized, unsung heroes. Included are the role of the glider pilot's during the war and spy camp on Santa Catalina Island, CA. The women took extraordinary steps to serve their country during the war as spies being sent into German occupied Europe.
