Stress is a lot like love – hard to define, but you know it when you feel it.

This book will explore the nature of stress and how it infiltrates every level of your life, including the physical, emotional, cognitive, relational and even spiritual. You'll find ways to nurture resilience, rationality and relaxation in your every day life, and learn how to loosen the grip of worry and anxiety. Through techniques that get to the heart of your unique stress response, and an exploration of how stress can affect your relationships, you'll discover how to control stress instead of letting it control you. This book shows you how.

But this book is not just another “anti-stress” book. Here, we will not be concerned with only reducing the symptoms of stress. Rather, we'll try to understand exactly what stress is and the role it plays in our lives. We'll attempt to dig deep to really understand the real sources of our anxiety and how to take ownership of them. Using the power of habit and several techniques for smoothing out the stressful wrinkles in our day-to-day lives, we'll move towards a real-world solution to living with less stress, more confidence and a deep spiritual resilience that will insulate you from the inevitable pressures of life.

By adopting a trusting, open and relaxed attitude, we'll bring something more of ourselves to relationships of all kinds. This book will take a look at dating and relationships without stress and worry, as well as ways to bring tranquility and balance into your home and family life. Again, this book is not about eradicating stress from your life forever. We'll end with a consideration of the positive side of negative thinking, and how we can use stress and worry to our advantage.

We will address physical, emotional, relational, spiritual, and cognitive and behavioral symptoms of stress.

And while most stress-management solutions offer relief for symptoms in only one or two of the above areas, this book will show you how all five areas are important, and a successful stress solution will touch on

each of them.

## Here Is What You Will Learn After Reading This Book:

- The real sources of our anxiety and how to take ownership of them
- A real-world solution to living with less stress
- Dating and relationships without stress and worry
