Introduction to Neural Networks with Java Jeff T Heaton

Introduction to Neural Networks in Java introduces the Java programmer to the world of Neural Networks and Artificial Intelligence. Neural network architectures such as the feedforward backpropagation, Hopfield, and Kohonen networks are discussed. Additional AI topics, such as Genetic Algorithms and Simulated Annealing, are also introduced. Practical examples are given for each neural network. Examples include the Traveling Salesman problem, handwriting recognition, fuzzy logic and learning mathematical functions. All Java source code can be downloaded online. In addition to showing the programmer how to construct these neural networks, the book discusses the Java Object Oriented Neural Engine (JOONE). JOONE is a free open source Java neural engine.

From reader reviews:

Irene Holmes:

Why don't make it to be your habit? Right now, try to prepare your time to do the important act, like looking for your favorite publication and reading a e-book. Beside you can solve your short lived problem; you can add your knowledge by the e-book entitled Introduction to Neural Networks with Java. Try to face the book Introduction to Neural Networks with Java as your good friend. It means that it can to become your friend when you feel alone and beside that course make you smarter than ever. Yeah, it is very fortunated to suit your needs. The book makes you much more confidence because you can know everything by the book. So , let us make new experience along with knowledge with this book.

Kevin Lemon:

Book is written, printed, or descriptive for everything. You can realize everything you want by a book. Book has a different type. As you may know that book is important matter to bring us around the world. Alongside that you can your reading expertise was fluently. A publication Introduction to Neural Networks with Java will make you to possibly be smarter. You can feel far more confidence if you can know about almost everything. But some of you think which open or reading a new book make you bored. It is not make you fun. Why they are often thought like that? Have you searching for best book or ideal book with you?

Molly Maldonado:

Here thing why that Introduction to Neural Networks with Java are different and dependable to be yours. First of all studying a book is good but it depends in the content from it which is the content is as scrumptious as food or not. Introduction to Neural Networks with Java giving you information deeper since different ways, you can find any reserve out there but there is no e-book that similar with Introduction to Neural Networks with Java. It gives you thrill examining journey, its open up your own personal eyes about the thing which happened in the world which is possibly can be happened around you. You can actually bring everywhere like in recreation area, café, or even in your way home by train. When you are having difficulties in bringing the paper book maybe the form of Introduction to Neural Networks with Java in e-book can be your substitute.

Delbert Storey:

Spent a free time for you to be fun activity to do! A lot of people spent their sparettime with their family, or their very own friends. Usually they carrying out activity like watching television, planning to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Do you need to something different to fill your personal free time/ holiday? Can be reading a book may be option to fill your free of charge time/ holiday. The first thing that you will ask may be what kinds of e-book that you should read. If you want to attempt look for book, may be the publication untitled Introduction to Neural Networks with Java can be good book to read. May be it is usually best activity to you.
