Quick Reference Handbook for Surgical Pathologists Natasha Rekhtman, Justin A. Bishop

This book is a compilation of high-yield, at-a-glance summaries of immunohistochemistry, special stains, grading systems, molecular markers, tumor syndromes, and selected morphologic and clinical references. It is intended for use as a quick reference or "peripheral brain" while at the microscope (or when cramming for the boards). The book has a unique, easy-to-navigate format: tables and diagrams accompanied by brief, to-the-point explanatory text. The authors are early-career pathologists who compiled this book for pathologists-in-training, but the information will be equally relevant to the practicing pathologist.
